DIMITAR TERZIEV

BACHELOR'S STUDENT IN GLOBAL BUSINESS ENGINEERING

PROFESSIONAL PROFILE

As a proactive international student in business and software engineering, I have always found myself motivated to develop and grow professionally. I am keen to pursue a career in the field of Software Engineering.

Living abroad for the past year and a half in Denmark, gave me a broader view and better practices in my daily routine.

EDUCATION

Bachelor's student in Global Business Engineering

August 2021 - January 2026

- Working collaboratively within a **multicultural team** to develop **software solutions** addressing various company issues. Utilized technologies such as **Java, React, JavaScript, HTML, CSS, and SQL** to implement effective solutions.
- **Key Achievements:**
 - Applied marketing knowledge to provide a holistic perspective on **addressing real-world industry issues through technology.**
 - Conducted comprehensive **macro- and micro-analysis** to inform **strategic decision-making.**
 - **Advised and contributed** to the development of **marketing plans** for the software solutions.
 - **Collaborated** with team members from **diverse cultural backgrounds**, honing effective **communication** and collaborative **problem-solving skills.**
